

I'm looking for people to photograph!

I'm looking for a wide range of people to photograph. As a professional photographer I have been taking portraits for many years but I want to take a lot more portraits on my film cameras rather than digital, and so I need to update my portfolio. I'm particularly keen for environmental portraits, photographing people in their home, work or on location, particularly on b/w film, however I'll shoot almost any portrait style. Anywhere in Wairarapa, Hutt Valley, and greater Wellington regions. You certainly don't have to be a model as I'm keen for a wide range of different people.

It's completely free, and in return for your time I'll give you digital copies of the photos and a professional enlargement (up to A3). Offer valid until the end of February 2026.

Photos below and next page show the style of photos I would like to take:

Examples only. © individual photographers

Please email, call or text if you'd like any more details or to discuss and arrange a time for your photographs

There are no catches, but here is the fine print!

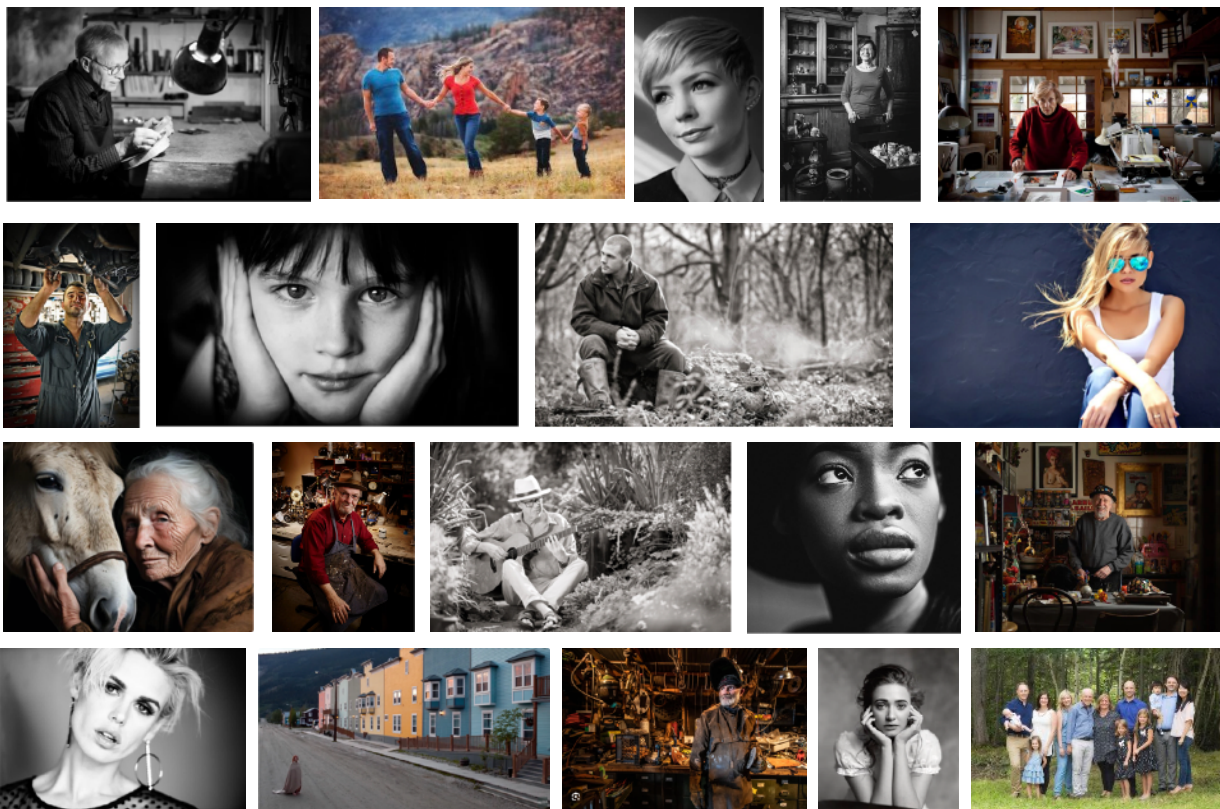

Photography session includes my time, travel and all photographic materials including film and processing. No cost to you.

I will most probably take the photos on a medium format film camera but may decide to use 35mm film if appropriate. I may also take a few digital photos as well.

It may take me a week or two to develop, scan and view the photos before I send any to you.

I will give you digital versions of the photos and if you'd like, a professional enlargement up to A3. Please note that any digital images are for personal use only. You are free to use them on social media but they cannot be used for any commercial use without permission.

I may use the photos for my portfolio and perhaps some images on my website. I will not on-sell or use any photo for any other purpose unless I receive your permission.

Examples only. © individual photographers
